Student
SD N 094151 girsip bolong

Expertise

- UI/UX
- Web Development
- Mobile App Development

Language

English

Indonesia

David Vincent Gurning
Students

you can call me David. I come from a small town called Ajibata in North Sumatra, Indonesia. I am a second-year Informatics student and currently undergoing 5th semester. I am very passionate about IT and programming, technology has become an integral part of me. I started blogging when I was 19 years old and got to know more about web development after that. I have a leadership spirit, love to learn new things, creative, humorous, and ready to accept challenges. With the experiences that I've gone through, it makes me more interested in participating in IT activities around me. For me, there is no reason to stop creating other new experiences in the future.

Experience
